WAGES AND PRICES OF COMMODITIES.

Mr. LODGE presented the following

LETTER FROM THE SECRETARY OF AGRICULTURE TRANSMITTING RESULTS OF THE INQUIRY INTO THE PRICES PAID BY CONSUMERS AND PRICES PAID BY RETAIL DEALERS TO WHOLESALE DEALERS OR PRODUCERS FOR EGGS, BUTTER, MILK, AND CHICKENS IN THE LAST WEEK IN JANUARY, 1910, IN REPRESENTATIVE CITIES OF THE UNITED STATES.

JUNE 1, 1910.—Referred to the Select Committee to Investigate Wages and Prices of Commodities, and ordered to be printed.

DEPARTMENT OF AGRICULTURE,  
OFFICE OF THE SECRETARY,  
*Washington, D. C., May 28, 1910.*

MY DEAR SENATOR: I have your letter of May 27, and take pleasure in forwarding herewith the matter we have collected in regard to the farm, wholesale, and retail prices of butter, eggs, milk, and poultry.

Very truly, yours,

JAMES WILSON, *Secretary.*

Hon. H. C. LODGE,  
*United States Senate.*

UNITED STATES DEPARTMENT OF AGRICULTURE,  
BUREAU OF STATISTICS,  
*Washington, D. C., May 25, 1910.*

Mr. SECRETARY: We beg to submit the results of the inquiry into the prices paid by consumers and the prices paid by retail dealers to wholesale dealers or producers for eggs, butter, milk, and chickens in the last week of January, 1910, in representative cities of the United States. At the time the inquiry was being made unusual price changes occurred, which made it difficult to obtain comparable average figures. The price of butter declined materially, and many retail quotations given for fresh eggs were such as to indicate that cold-storage eggs were quoted as fresh eggs.

The returns of the inquiry as received (from about 75 cities), indicate that the average prices paid by consumers, paid by retail

dealers, and received by near-by farmers, for products specified, in the last week of January, 1910, were as follows:

	Paid by con- sumers.	Paid by retailers. <sup>a</sup>	Received by near- by pro- ducers. <sup>b</sup>

Average price paid by delivery dealers to wholesale dealers, 6.4 cents per quart.			

<sup>a</sup>As reported by special agents of the Department of Agriculture.

<sup>b</sup>As reported by crop correspondents of the Bureau of Statistics.

On February 1, 1910, the average price received by farmers in the United States, as estimated by the Bureau of Statistics, for eggs was 28.9 cents per dozen, and for live chickens 11.1 cents per pound.

Representing the price paid by consumers in each case by 100, the relative price paid by retailers and price received by near-by farmers was as follows:

Details of prices by cities accompany this report.

With your approval, another investigation of this kind will be made in June, when prices are generally more stable, and when there is more uniformity in the offerings of eggs, than in February, when the last investigation was made.

Very respectfully,
